FAQ

- Where is the HackFest?

  HackFest will take place at STMicroelectronics, Via Remo De Feo 1, Arzano (NA) in the Arzano-Casoria-Frattamagiore (ACF) industrial area. You can easily park your car just before the security gate.

- What time the HackFest will take place?

  The HackFest starts at 9 AM each morning. It ends at 6 PM on Saturday, and at 3 PM on Sunday

- The HackFest is for "experts". Am I an "expert"?

  If you have used any microcontroller and have a good knowledge of C, then you are an "expert".

- Is there WI-FI connection?

  You will be provided with a temporary connection to download datasheets, SW, etc.

- What about a laptop?

  You need to bring a laptop with Windows installed.

- How is the HackFest organized?

  There will be three collaborative challenges:

  1) Bring your application / idea and get it running on STM32 Nucleo.
  2) Add an x-Nucleo or "shield" expansion board of your own choice.
  3) Chose from a selection of specific mystery challenges.

- Can I bring my own components, or shields?

  Yes, if you wish to, you are welcome.

- What if I don't have an application or idea or SW tools? I'm a bit worried.

  No problem, NeaPolis Innovation tutors will help you. The idea is to collaborate.

- Do I need to be in a team?

  Yes. If you registered as a single, we will match you with someone else in order to build a team.
